

Updated club guidelines 14/09/2004

Because of the heightened awareness of the welfare of children and their carers (and rightly so), Rokakai Karate UK (later referred to as Rokakai) is updating its club guidelines and registration details. These guidelines replace or are in addition to previous guidelines and Rokakai will make all reasonable efforts to apply them:

- All Rokakai Instructors and helpers (later referred to as representatives) will be CRB (Criminal Records Bureau <http://www.crb.gov.uk>) checked.
- Children may only be collected by parents/guardians/responsible persons (later referred to a carer) who is registered in writing with Rokakai as being responsible for that child.
- No single representative will be left in charge of a single student unless previously agreed in writing with his or her carer.
- No single representative will be left in charge of a group of students (Note this may require carers to be present during club sessions).
- Rokakai will at its discretion suspend students and/or charge a reasonable fee for the supervision of children who are not collected by a carer.
- No photography or video will be allowed at Rokakai sessions except by the authorised Rokakai photographer and then only where possible of children whose carer has not refused permission in writing.
- Carers remain responsible for their children at all times whether they are present or not.
- Carers who wish to remain at training sessions should be careful not to distract students from training and mobile phone calls etc. should be conducted outside of the training hall.

- Karate is a physically demanding sport, students or their carers are responsible for attending sessions in a fit state to train. Students should not train if they feel unwell or have any communicable problems. Things that prevent training may be, but is not limited to:
 - Head lice
 - Sickness
 - Diarrhoea
 - Chicken pox
 - Measles
 - Mumps
 - Under the influence of drink or drugs
- Rokakai reserves the right without refund to remove students from sessions and the Rokakai club for unreasonable behaviour of the student or carer.
- Students should have drinks to prevent dehydration especially during the hot summer months. It is the carers responsibility to provide these drinks. Students without drinks may be prevented from training.
- Kumite or sparring requires extra protection; students will not be permitted to spar unless they are equipped with a complete set of safety equipment.
- The Rokakai club guidelines override any local policies where possible.
- All information provided to Rokakai will be kept in strictest confidence please see our privacy policy on the Rokakai website. Printed copies are available on request.
- Rokakai reserves the right to modify these guidelines at any time without informing parents in writing.
- By registering your child with Rokakai you agree to these terms and conditions. Students may not attend Rokakai sessions unless the following information is provided.
